## Faculty/Philosophy

We have established this preschool as an outreach of Ascension & Holy Trinity Episcopal Church to Wyoming and the surrounding communities. Our goal is to provide a safe, stimulating, and God-centered school environment that promotes the social, emotional, intellectual, and physical development of each child enrolled. Each child is encouraged to grow at his or her development rate and to have fun at the same time! We believe preschoolers learn naturally by hands-on exploration, so the A&HT Wyoming Preschool is set up to allow preschoolers time for creative play and exploration of the social world. Our experienced staff is committed to building character as well as loving the children where they are.

## Parent Involvement

Parents are always welcome to become involved in our school, though we realize the demands of everyday life are time-consuming; hence, most opportunities for parents are *optional* and include: Family Open House, holiday parties, reading books to classes, sharing career information, and sending postcards to classes to help with the study of geography.
